

This is the legend of an accursed architect...

There was a conspiracy of silence organized because of his revolutionary opinions and zest.

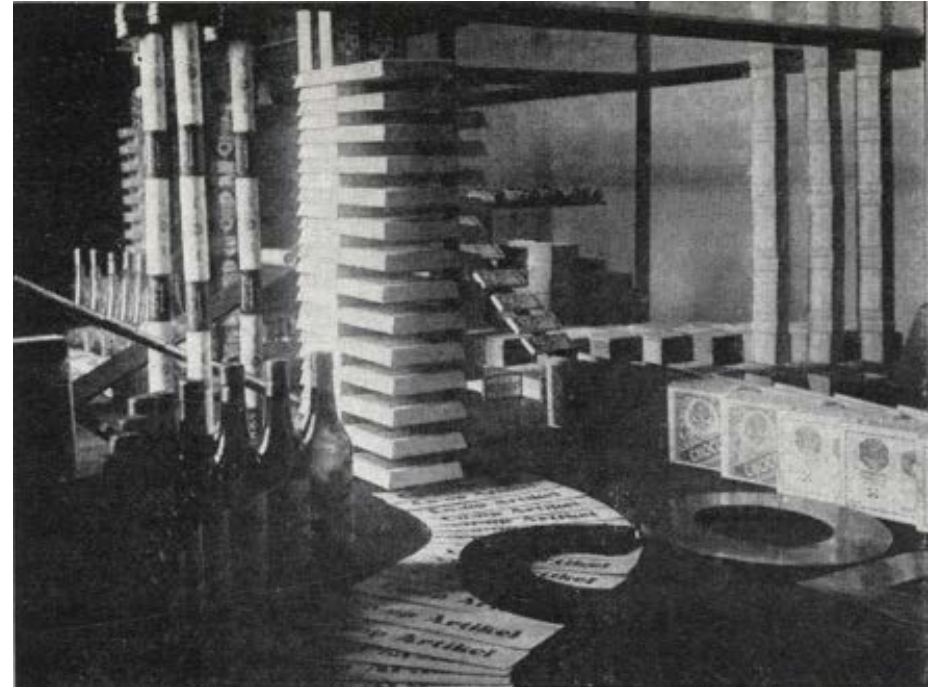

Hannes Meyer

(November 18, 1889 –
July 19, 1954)

- Switzerland architect
- Second director of Bauhaus in Dessau

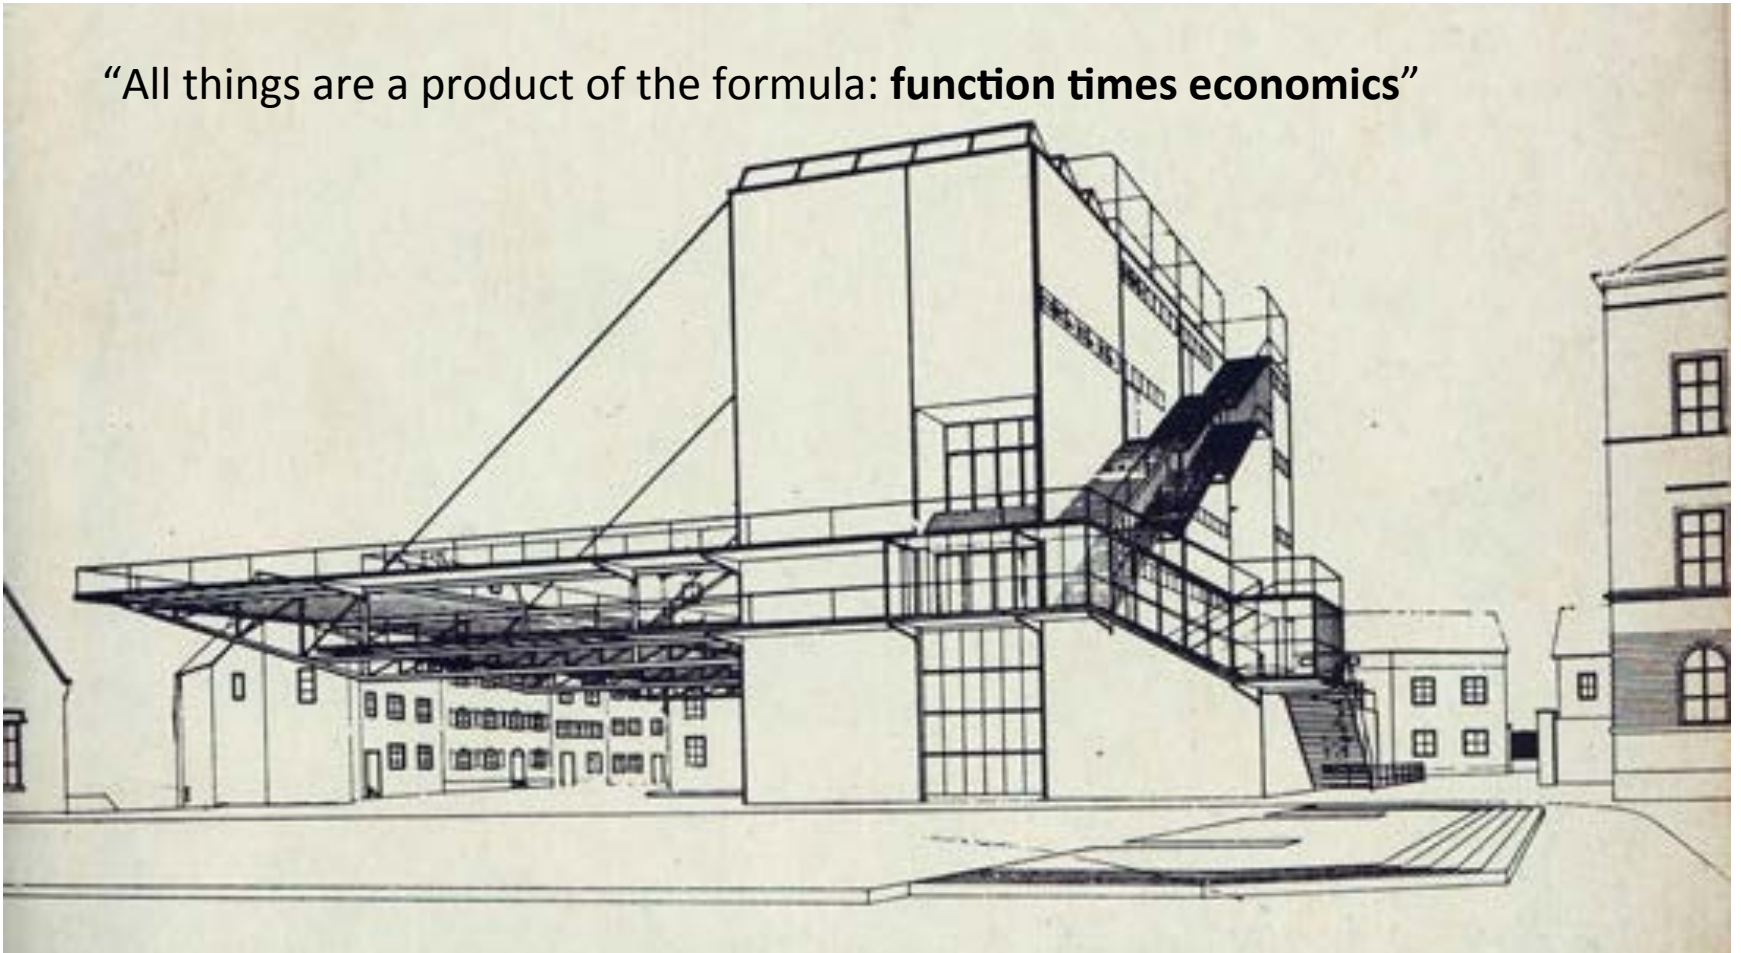

The coop principle

- * Society and design
- * Individual and collaborative creation

Functionalism - “The New World”

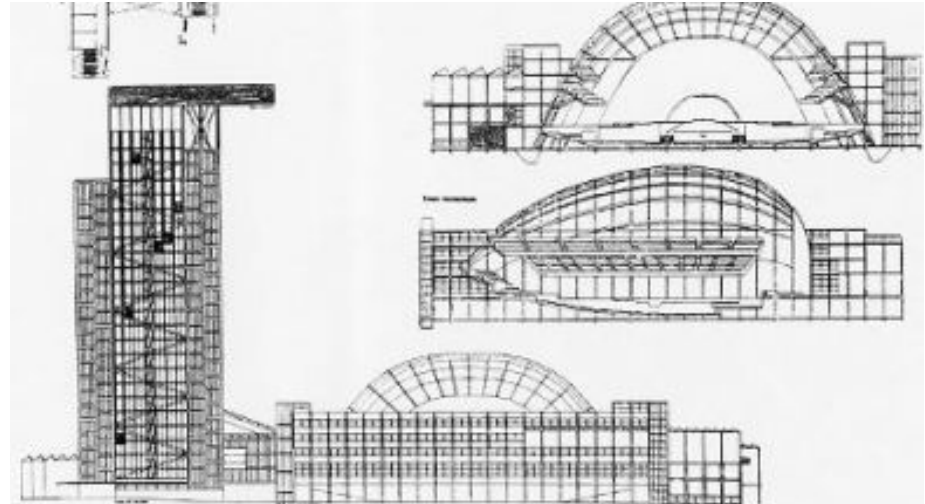

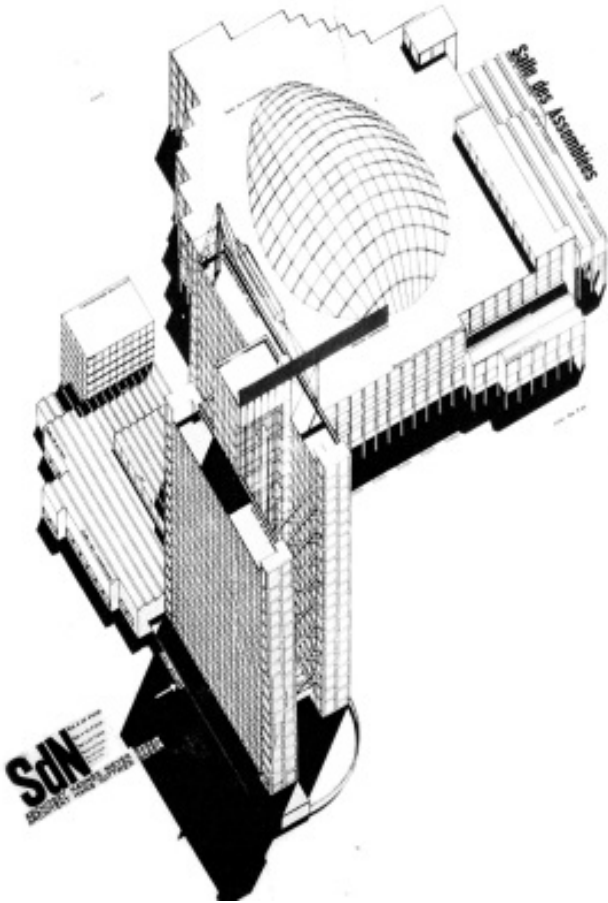

“All things are a product of the formula: **function times economics**”

Functionalism/Constructivism

- Beauty appears when everything is made functional
- Focus on efficient structure, practical construction
- Materials with properties with environmental benefit for the occupants
- Environmental is is an important issue for Architects nowadays, but back in 1930 Meyer was the first one who considered thermal and other properties of materials
- “individual form, building mass, material color and surface texture come about automatically”,

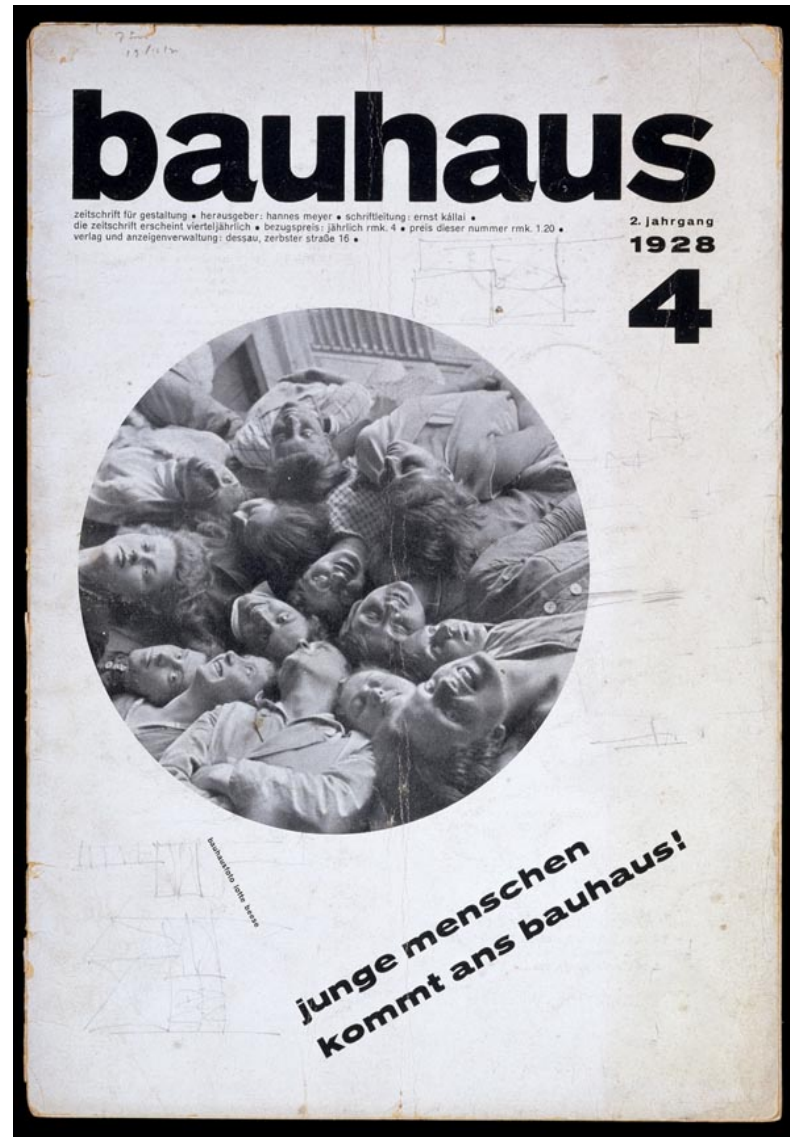

Project for the palace of the league of Nations, Geneva, 1926

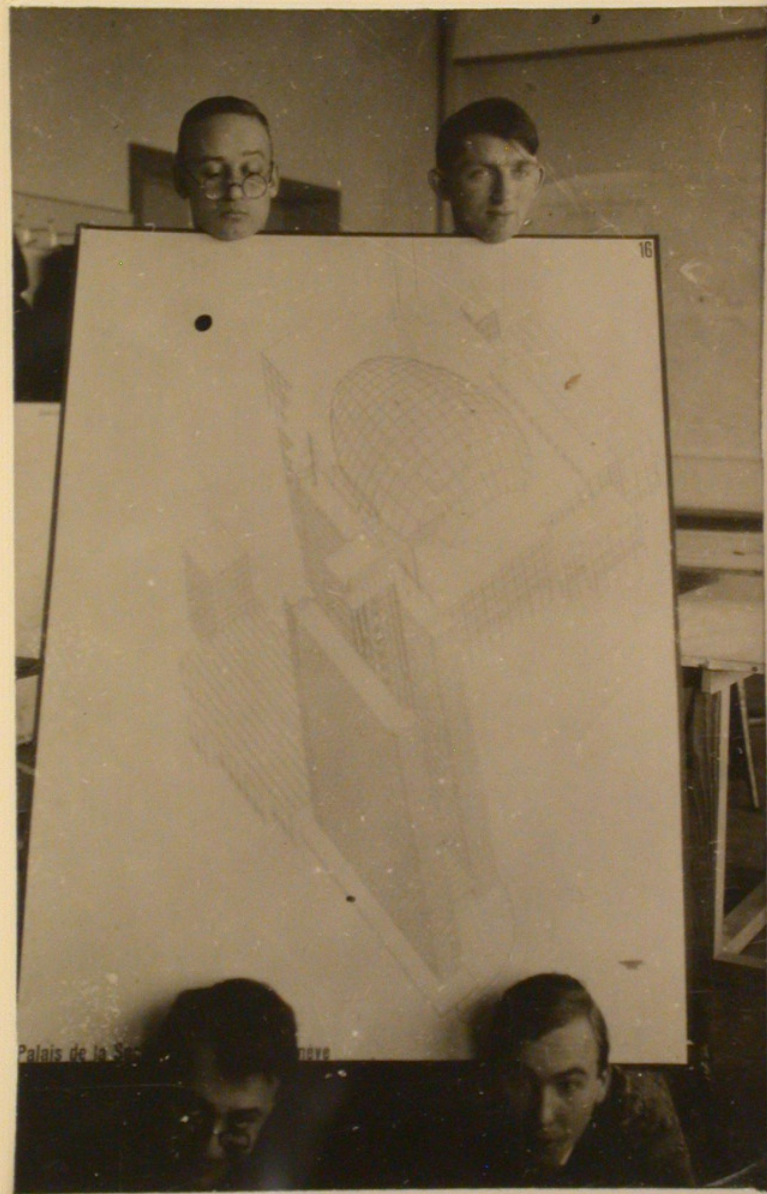

Inspired by:

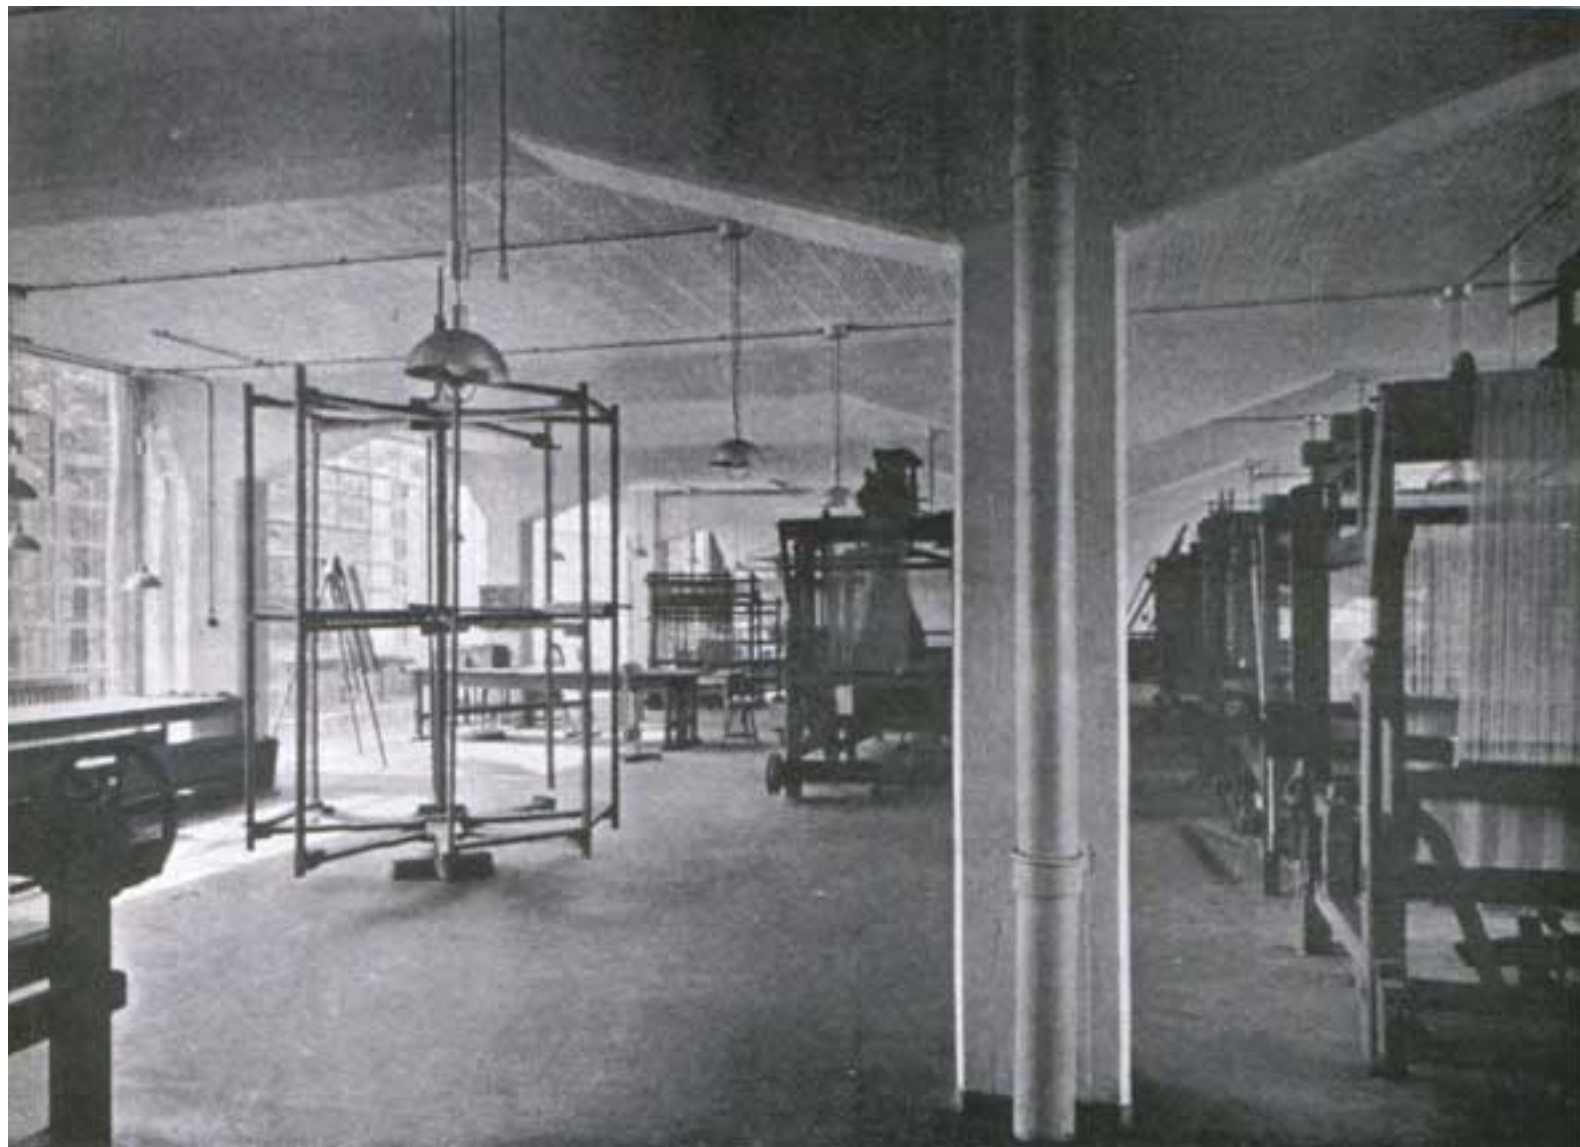

- * Nature
- * Transparency for resolving international problems
- * Public sphere
- * Maintenance of peace

1928, manifesto “Bauen”

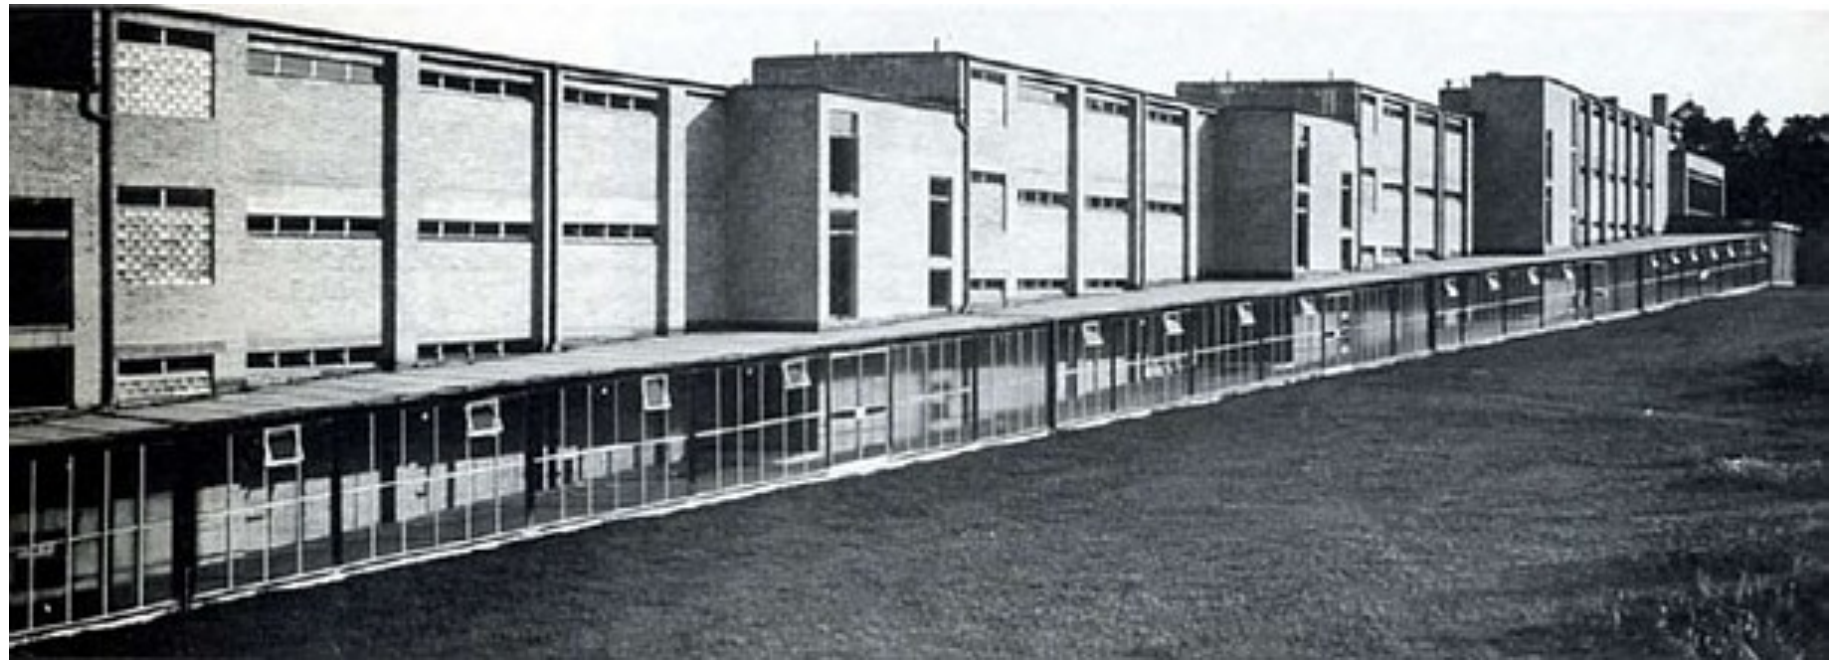

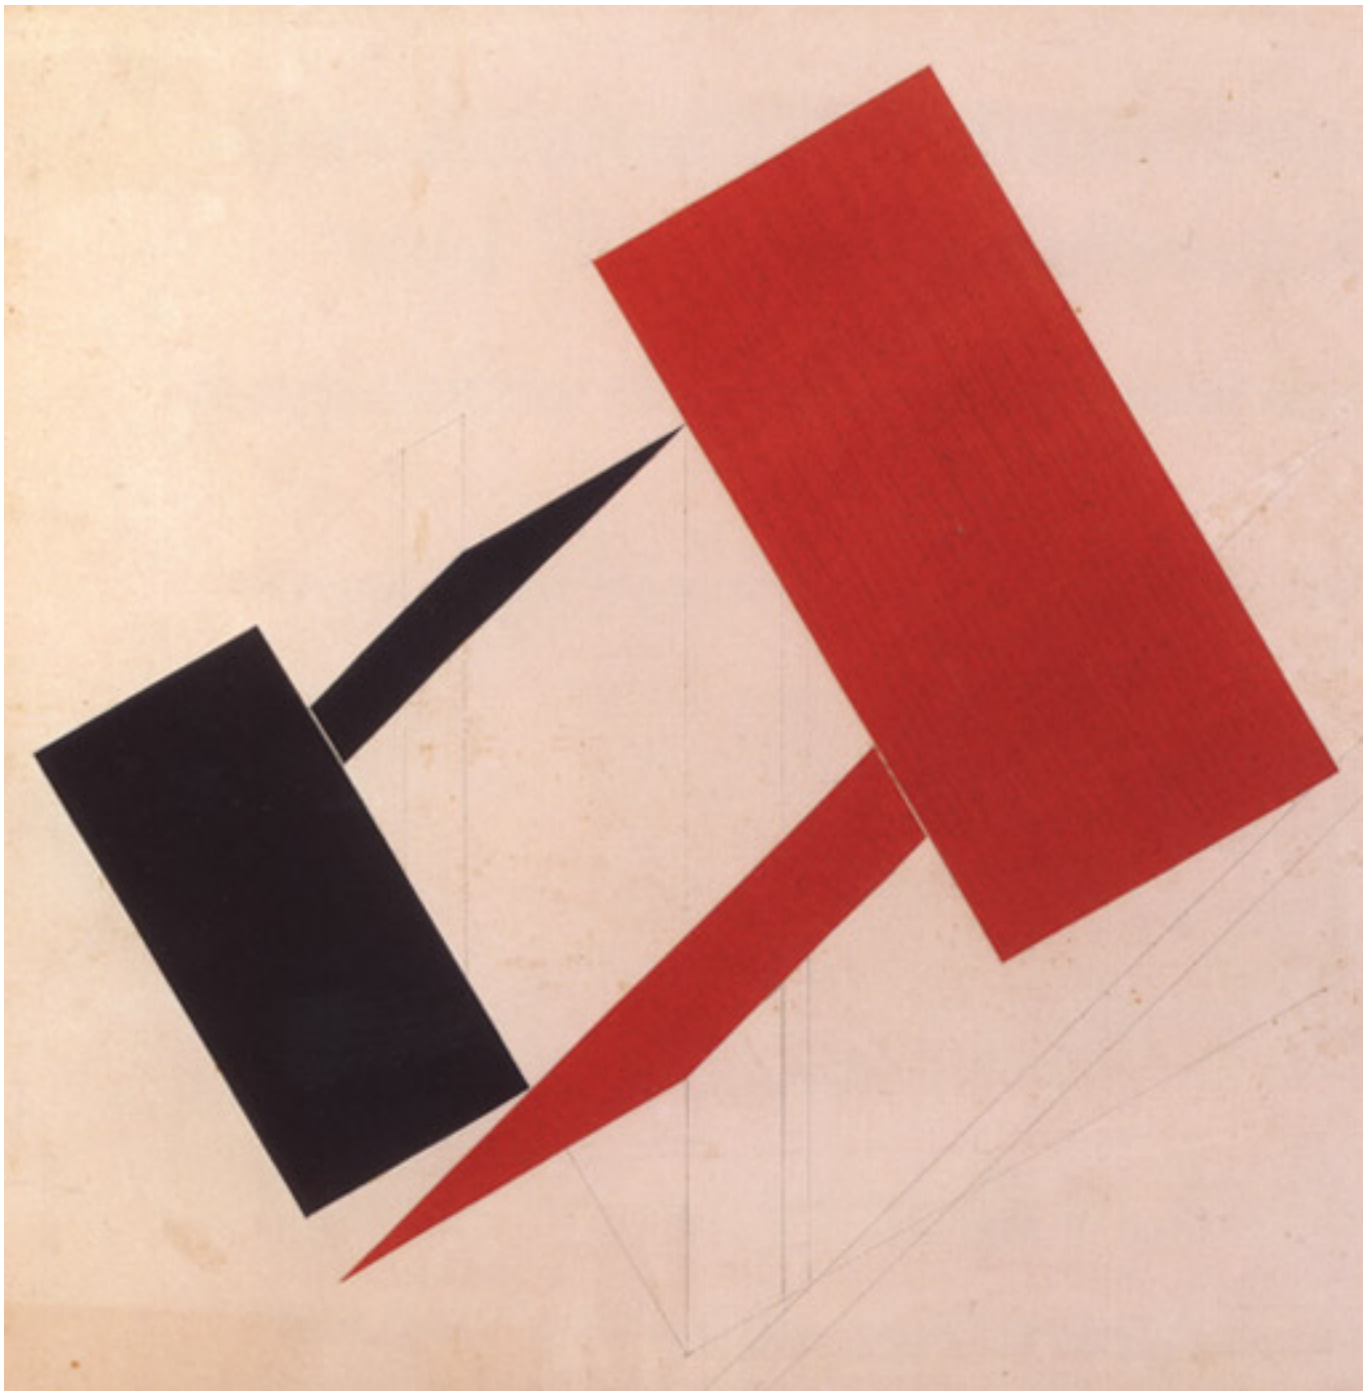

“The people’s need instead of
the need of luxury”

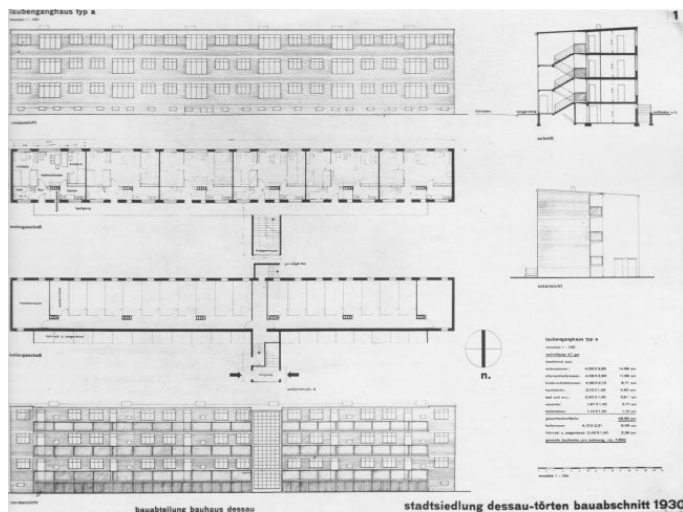

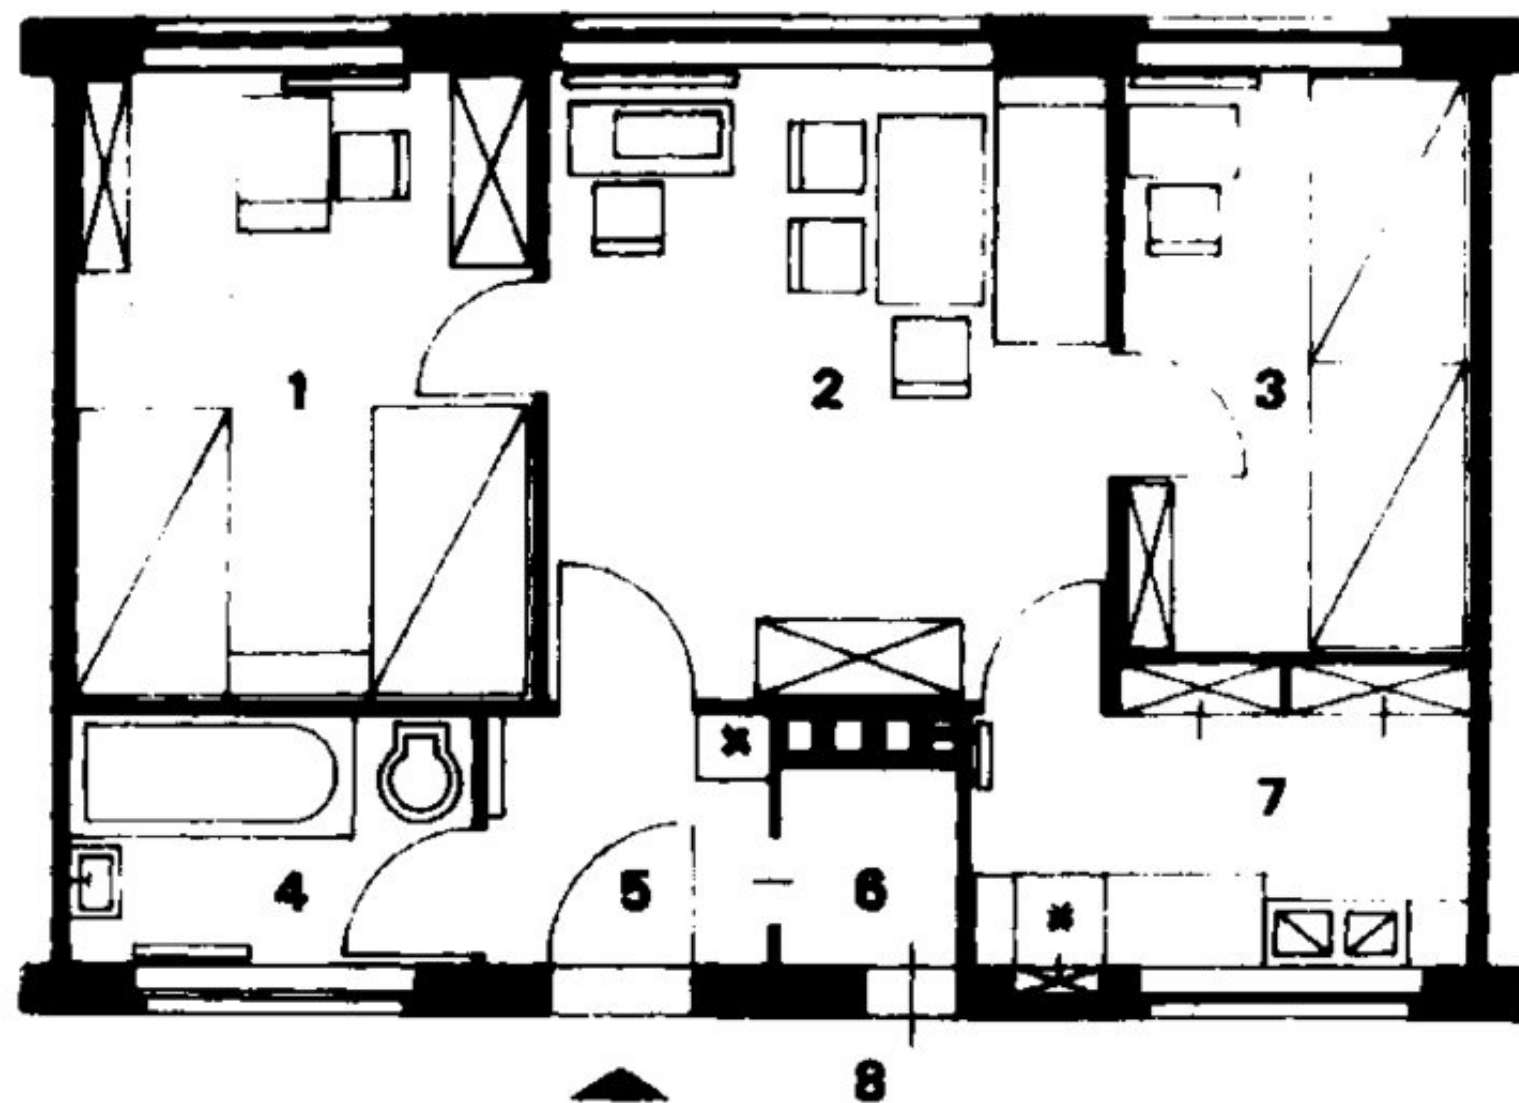

Dessau-Törten Housing estate, 1928

- Affordable living space
For the growing population

Balcony access house, 1929-1930

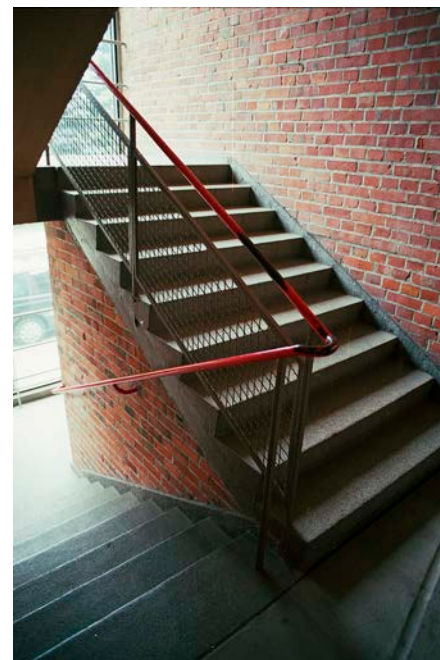

1 Schlafzimmer, 2 Wohnzimmer, 3 Kinderzimmer,
4 Bad und WC, 5 Flur mit Etagenheizung,
6 Kohlenbox, 7 Küche, 8 Laufgang

Mittelbreite
Johannisthaler Weg

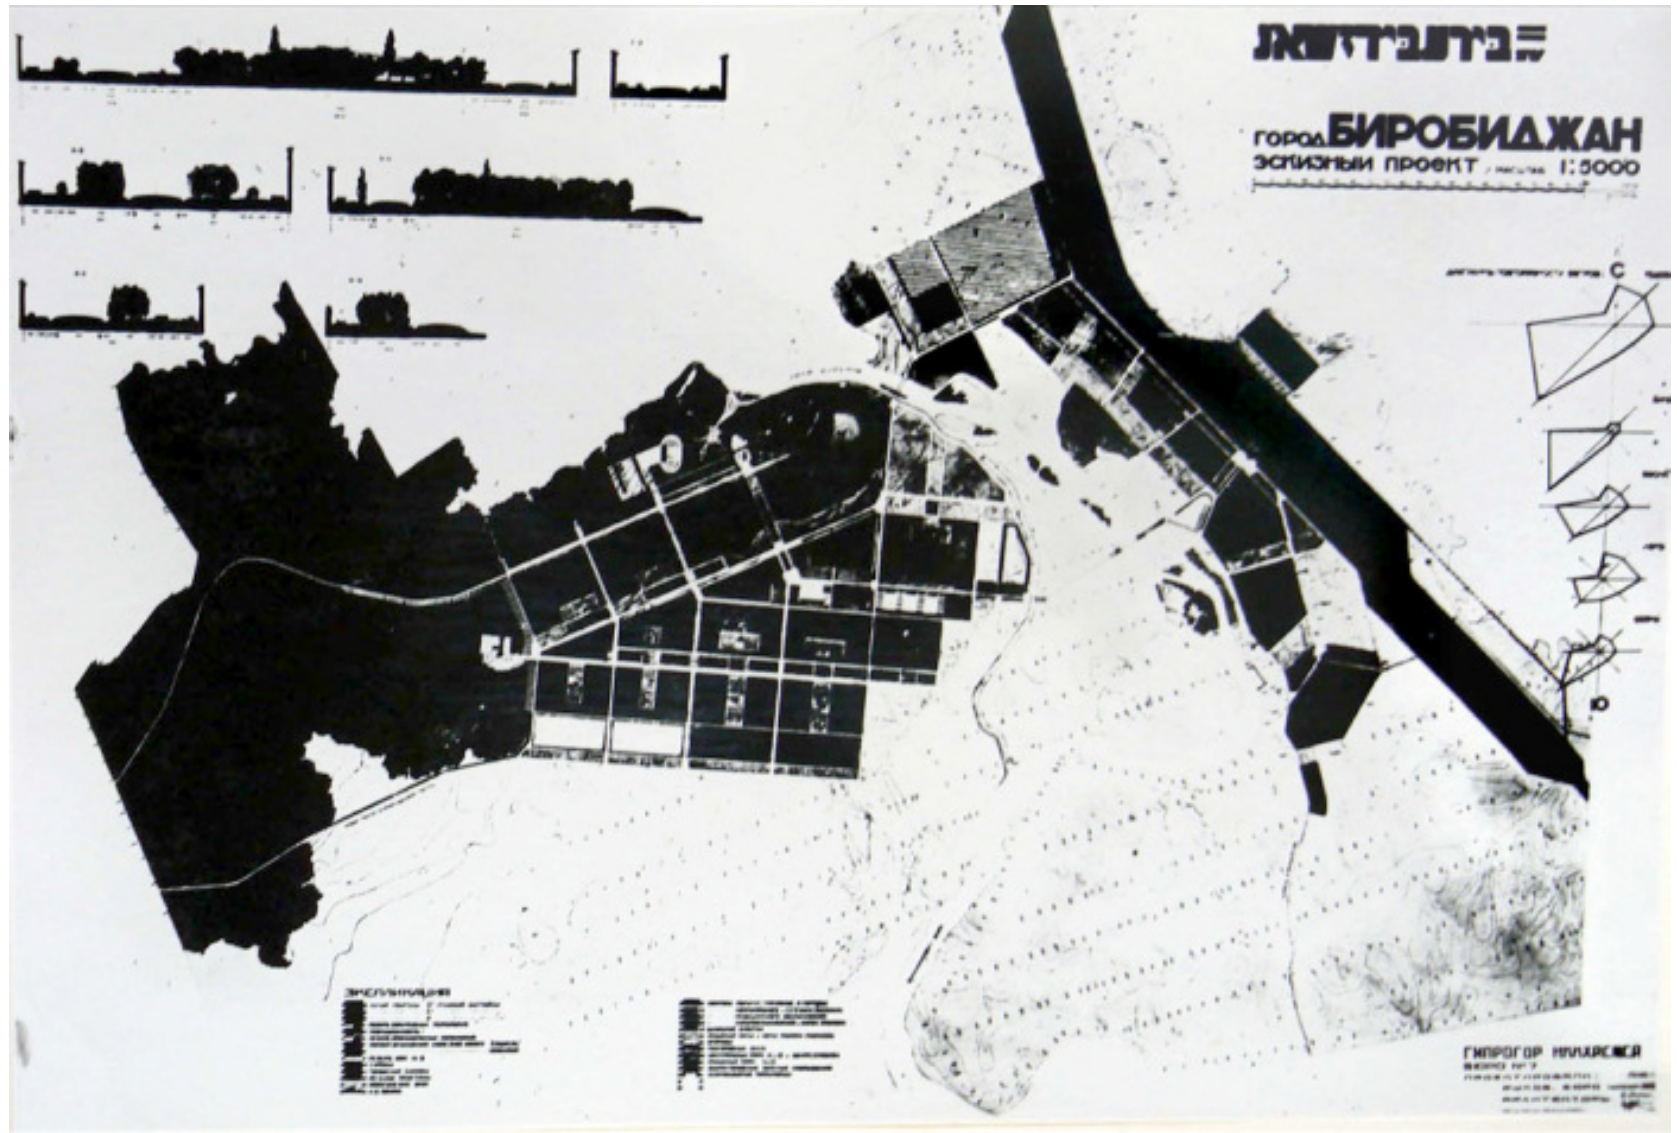

1930, Meyer to USSR

- WASI school, architecture and civil engineering school in Moscow
- Advisor Urban projects Giprogor, Soviet Institute for urban and investment development
- Designed plans for universities and academies of the “Great Moscow”

The Great Moscow plan

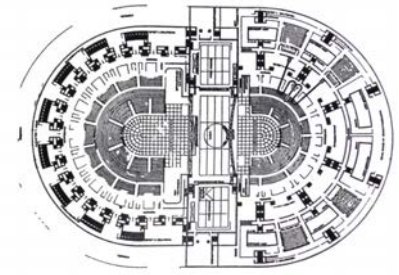

Urban plan for the city Birobidzhan

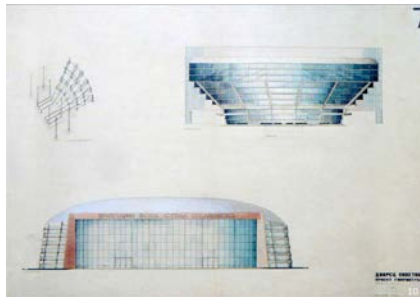

Palace of the Soviets
